## Summary

Full Stack Software developer with over 6 years of experience in building responsive, user-friendly, and highly performant applications. I'm a highly motivated full-stack developer with a strong focus on frontend development. I have a track record of success in both full-time and freelance positions, and I'm well-versed in finance, academic, search, and sports domain. Also, I am adept with standard software practices and conventions. In my current role at Zenith bank, I have developed and maintained trade applications serving thousands of users.

## Experience

### **SOFTWARE ENGINEER | ZENITH BANK | APRIL 2021 – PRESENT**

- Collaborated with the backend team to migrate core banking from Pheonix to FlexCube, which was utilized by more than 8,000 employees at the time.
- Built and deployed the FX Conversion module that significantly increased the bank's FX revenue while decreasing customer wait times and getting rid of redundant processes.
- Deployed Auxiliary charge, Letter of Credit and Fixed Income frontend modules, which improved processing time, increased revenue and eliminated manual paperwork. This allowed for a well-documented procedure and the removal of duplicate charges.
- Using the most recent and stable tools, I bootstrapped the new RTGS (Real-time Gross Settlement) webapp while simultaneously increasing turnover and performance.
- Maintained and fixed bugs reported on Zenith Trade legacy applications which included FX Management and Form A.

### **SOFTWARE DEVELOPER | FREELANCE | OCTOBER 2018 – APRIL 2021**

- Using a range of frameworks and libraries, I oversaw the entire application development lifecycle, constantly achieving deadlines and exceeding client expectations.
- Improved user experience, bug fixes, Search engine optimization (SEO), and addition of new features to existing applications.
- Authored technical articles and worked on open-source projects with cross-functional teams. r% decrease in food waste and higher net profits.

## Education

**BACHELOR IN COMPUTER SCIENCE | SEPTEMBER 2018 | ABIA STATE UNIVERSITY, UTURU.**

## Sills & Abilities

React, Next.js, Angular, Material UI, Ant Design, Redux, JavaScript and TypeScript, Node, Express.js, MongoDB, Playwright, Git, Web security, CI/CD, Azure, Search, SQL, SASS, Vercel

Communication, teamwork, problem-solving, adaptability, time management, continuous learning, empathy, attention to detail and technical writing.
