

Chukwuemeka Maduekwe

Software Developer

Phone: +234(706) 4417213

Email: maduekwepedro@gmail.com

Mailing Address: Plot 2, Ajose Adeogun Street, Lagos, Nigeria

SUMMARY

I'm a Software Developer with expertise in building high-quality Native and Full stack Web applications using **JavaScript** and **Typescript**. With proven track record of both freelance and full-time work, I'm an excellent addition to any team thanks to my contribution to open-source.

FAVORITE TOOLS

- **Frontend:** React, Svelte, Angular and Next.js
- **UI:** Material-UI, Tailwind, Figma, SCSS and CSS3
- **Backend:** Express (Node.js), Firebase and Mongo DB
- **Native:** Electron.js and React Native

EXPERIENCE

Software Developer at **Zenith bank** April 2021 till date

- I apply my expertise as a developer to design and improve applications using different Frameworks and Libraries.
- My responsibilities include developing applications from scratch and enhancing functionality of existing ones through the addition of new features.
- I have a track record of successfully building scalable and efficient applications that cater to a diverse user base.

Software Developer (Freelancing) Oct 2018 – March 2021

- Worked on several projects across various domains, such as Fintech, Health, Sports, and Full-text Search, using a variety of frameworks and tools.
- Fixed bugs, improved SEO, and enhanced existing applications
- Managed the full lifecycle of application development while meeting deadlines in a timely fashion and exceeding clients' expectations.
- Working collaboratively with cross-functional teams and contributing to code reviews

EDUCATION

Abia state University, Uturu

Bachelor's Degree in Computer Science (2014 to 2018)
