# Chukwuemeka Maduekwe
## Software Developer

Phone: +234(706) 4417213
Email: maduekwepedro@gmail.com
Mailing Address: Victoria Island, Lagos, Nigeria

## SUMMARY

I'm a Software Developer with expertise in building high-quality Full stack web applications using **JavaScript** and **Typescript**. With proven track record of both freelance and full-time work, I have a strong understanding of common patterns and conventions used in codebases thanks to my contribution to open-source projects.

## FAVORITE TOOLS

- **Frontend**: React.js, Next.js, Material-UI and SCSS
- **Backend**: Express (Node.js), Mongoose and Mongo DB

## EXPERIENCE

**Software Developer** at **Zenith bank** April 2021 till date

- I apply my expertise as a developer to design and improve applications using different Frameworks and Libraries.
- My responsibilities include developing applications from scratch and enhancing functionality of existing ones through addition of new features.
- I have a track record of successfully building scalable and efficient applications that cater to a diverse user base.

**Software Developer (Freelancing)** Oct 2018 – March 2021

- Worked on several projects across various domains, such as Fintech, Health, Sports, and Full-text Search, using a variety of frameworks and tools.
- Fixed bugs, improved SEO, and enhanced existing applications
- Managed the full lifecycle of application development while meeting deadlines in a timely fashion and exceeding clients' expectations.
- Working collaboratively with cross-functional teams and contributing to code reviews

## EDUCATION

**Abia state University**, Uturu
Bachelor's Degree in Computer Science (2014 to 2018)
